

Bearing Driver

This tool enables you to install the pinion support bearing on a 9" Ford without killing the race.

Made of anodized aluminum with a steel driving ring

This spanner wrench beats using a punch and hammer and saves the adjuster plate. Tool is fully adjustable to fit any side bearing adjuster.

Billet Aluminum & Anodized Adjuster Pins are Steel

Side Bearing Adjuster Wrench

Safety Wire Drilling Fixture

No More Excuses

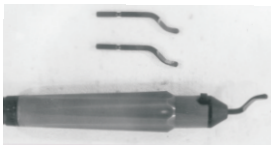

Now you can easily drill any bolt for safety wiring

- * Accepts bolts from .187" to .562" in diameter
