

**Audible  
Edge Finder  
for Bridgeport-Type Mill**

This is sort of a gimmick....but it works like a charm ~ within .0001 of contact .

A "clicking" noise is emitted when the edge is found. It really allows you to use both your eyes & ears for location.

Repeats every time!  
Within .0001 accuracy!

**VISIT OUR EBAY STORE:  
Pay with Pay Pal**

This is one of the neatest tools you can have in your tool box for layout work!

Here is how it works:

- \* Spray your work with Dykum Blue
- \* Place in scribe in the chuck
- \* Pre-load scribe
- \* Turn on your digital readout

**PRESTO!** You can layout any bolt pattern or fixture with amazing accuracy & it is fast!

(Illustrated in *Lathe Learnin' Video*)

**Spring-Loaded  
Layout Scribe**
